Comment on Figures:

- Revenues in Q4 were in line with expectations (WRe).
- Higher costs, however, led to a miss of the earnings expectations.

· Compared to the revenue base, the deviation from the EBITDA expectations is low. Together with higher depreciation levels, however, the EBIT line shows a small loss rather than a small profit.

In 2022, all segments contributed to profitable growth. In the Digital Business Solutions area, FP recorded revenue growth of 34% to EUR 28.4m (21.1m). The document workflow management business recorded higher customer activity, mainly in the outgoing communication of customers. The business process automation area grew across all solution areas including FP Sign, e-justice communication and De-Mail. Further, the acquired Azolver digital business solutions in the shipping and logistics area contributed to growth (nine months). This promising and growing segment will account for well over 10% of revenues in 2023 and is a future-oriented business, parallel to the mailing activities. In the Mailing, Shipping & Office Solutions area, revenue increased by 23% to EUR 151.3m (123.2). The company recorded positive currency effects of EUR 6.2m and benefited from one-time revenues of EUR 2.9m due to the postage-rate change in Germany. The acquired Azolver Group also strengthened FP's market position here. In 2023, the revenue levels of this area will probably be maintained. In the Mail Services area (collection, franking and consolidation of business mail), revenue rose by 23% to EUR 73.4m (59.8m). Revenue benefitted from a higher share of franked mail due to pandemic-related staff shortages on the customer side and special one-time mailings from customers. The effect was EUR 12.7m. This segment is unlikely to grow in 2023. Bottom line: Two years of transformation have led FP to a trend of profitable growth. In 2023, costs will decrease further, especially considering the integration of Azolver and positive effects of the new ERP system (completed in 2023, positive effects 2024+, i.e. automate and digitalise back office and front office). Overall, sales expectations for 2023+ remain merely unchanged (see below). However, it is becoming apparent that costs will be higher than we were initially expecting despite measures taken to counter general cost pressure. With a PT of EUR 6.60 (slight modifications and rollover of the DCF model) the stock continues to be rated Buy.

Comment on Changes:

- · A higher cost base and higher depreciation levels led to a reduction of earnings expectations (WRe) for 2023 and onwards.
- Nevertheless, significant earnings growth remains at the core of the expectations.

Company Background

- Francotyp-Postalia Holding AG, headquartered in Berlin, is a globally-active supplier of products and services for the postal market.
- The company was formed in 1983 with the merger of Francotyp (founded 1923) and Postalia (founded 1938) and has 100 years of experience in the postal market.
- Franking and inserting machines are still the core business activity.
- With new solutions digital business is to become an important part of the business model. The company strategically expanded its portfolio here.

Competitive Quality

- Focusing on customers with low to medium postal needs, Francotyp Postalia caters for two stable segments in the generally difficult market for franking machines.
- The 45% market share in the German market for franking machines demonstrates its reputation as the market leader in Germany based on the following distinguishing characteristics:
- established customer relationships and 80 years of experience in the German market with knowledge of customer demands and an efficient service network with rapid reaction times.
- The high proportion (about two thirds) of recurring revenues as a share of total revenue underlines the successful transformation of the competitive quality into a high company quality.
- For new market entrants, Francotyp Postalia's existing customer base is an unachievable target and the franking machines niche is unattractive.

KGaA and is passed on by the M.M.Warburg & CO (AG & Co.) KGaA. It is intended solely for the recipient and may not be passed on to another company without their prior consent, regardless of whether the company is part of the same corporation or not. It contains selected information and does not purport to be complete. The investment recommendation is based on publicly available information and data ("information") believed to be accurate and complete. Warburg Research GmbH neither examines the information for accuracy and completeness, nor guarantees its accuracy and completeness. Possible errors or incompleteness of the information do not constitute grounds for liability of M.M.Warburg & CO (AG & Co.) KGaA or Warburg Research GmbH for damages of any kind whatsoever, and M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are not liable for indirect and/or direct and/or consequential damages. In particular, neither M.M.Warburg & CO (AG & Co.) KGaA nor Warburg Research GmbH are liable for the statements, plans or other details contained in these investment recommendations concerning the examined companies, their affiliated companies, strategies, economic situations, market and competitive situations, regulatory environment, etc. Although due care has been taken in compiling this investment recommendation, it cannot be excluded that it is incomplete or contains errors. M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH, their shareholders and employees are not liable for the accuracy and completeness of the statements, estimations and the conclusions derived from the information contained in this investment recommendation. Provided a investment recommendation is being transmitted in connection with an existing contractual relationship, i.e. financial advisory or similar services, the liability of M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH shall be restricted to gross negligence and wilful misconduct. In case of failure in essential tasks, M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are liable for normal negligence. In any case, the liability of M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH is limited to typical, expectable damages. This investment recommendation does not constitute an offer or a solicitation of an offer for the purchase or sale of any security. Partners, directors or employees of M.M.Warburg & CO (AG & Co.) KGaA, Warburg Research GmbH or affiliated companies may serve in a position of responsibility, i.e. on the board of directors of companies mentioned in the report. Opinions expressed in this investment recommendation are subject to change without notice. The views expressed in this research report accurately reflect the research analyst's personal views about the subject securities and issuers. Unless otherwise specified in the research report, no part of the research analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views contained in the research report. DISCLOSURE ACCORDING TO §85 OF THE GERMAN SECURITIES TRADING ACT (WPHG), MAR AND MIFID II INCL. COMMISSION DELEGATED REGULATION (EU) 2016/958 AND (EU) 2017/565

The valuation underlying the investment recommendation for the company analysed here is based on generally accepted and widely used methods of fundamental analysis, such as e.g. DCF Model, Free Cash Flow Value Potential, NAV, Peer Group Comparison or Sum of the Parts Model (see also http://www.mmwarburg.de/disclaimer/disclaimer.htm#Valuation). The result of this fundamental valuation is modified to take into consideration the analyst's assessment as regards the expected development of investor sentiment and its impact on the share price.

Independent of the applied valuation methods, there is the risk that the price target will not be met, for instance because of unforeseen changes in demand for the company's products, changes in management, technology, economic development, interest rate development, operating and/or material costs, competitive pressure, supervisory law, exchange rate, tax rate etc. For investments in foreign markets and instruments there are further risks, generally based on exchange rate changes or changes in political and social conditions.

This commentary reflects the opinion of the relevant author at the point in time of its compilation. A change in the fundamental factors underlying the valuation can mean that the valuation is subsequently no longer accurate. Whether, or in what time frame, an update of this commentary follows is not determined in advance.

Additional internal and organisational arrangements to prevent or to deal with conflicts of interest have been implemented. Among these are the spatial separation of Warburg Research GmbH from M.M.Warburg & CO (AG & Co.) KGaA and the creation of areas of confidentiality. This prevents the exchange of information, which could form the basis of conflicts of interest for Warburg Research GmbH in terms of the analysed issuers or their financial instruments.

The analysts of Warburg Research GmbH do not receive a gratuity – directly or indirectly – from the investment banking activities of M.M.Warburg & CO (AG & Co.) KGaA or of any company within the Warburg-Group.

All prices of financial instruments given in this investment recommendation are the closing prices on the last stock-market trading day before the publication date stated, unless another point in time is explicitly stated.

M.M.Warburg & CO (AG & Co.) KGaA and Warburg Research GmbH are subject to the supervision of the Federal Financial Supervisory Authority, BaFin. M.M.Warburg & CO (AG & Co.) KGaA is additionally subject to the supervision of the European Central Bank (ECB).
