Multi Connectivity

Mailmark Extra

Reporting

Semi Automatic Feeder

PostBase™ Vision 5S integrates perfectly into your office with it's modern look and award winning design.

The PostBase™ 5S processes 50 letters per minute, allowing you to process daily mail easily. PostBase™ Vision 5S is whisper quiet and available in 5 designer colour options to integrate into your office perfectly.

Meticulously engineered with users in mind, this mailing system is intuitive and simple to use with a large colour touchscreen so that any operator can process mail with ease.

## Upgrade to PostBase™ Vision 5A

Upgrade your PostBase™ Vision 5S to a 5A and benefit from an automatic feeder. This will give you time to leave your items to process while you carry on with your daily tasks.

## Connected to the cloud

Connect straight to your customer portal, MyFP™ and manage your PostBase™ Vision machine from wherever you are. Through Vision360 you are able to monitor and report on your postage spends.
