

Automatic letter opener and counter **OL 750**

The secure one
Ideal to process your
incoming mail

Take-off from the stack
Thanks to the self-aligning
feeder, the daily mail can
be inserted without pre-
sorting.

**With the OL 750 you can open up to 10,000
letters a day. In addition, your letters are also
counted!**

Opening incoming mail by hand is mindless and
time-consuming! The letter opener OL 750, which
opens around 400 letters per minute, pays for itself
in no time.

**Position letters and off you go to process
your incoming mail!**

- Automatic, self-aligning infeed of the mail items
- Maximum safety through milling technology, for
the envelope contents and the operator, as there
are no sharp cutting edges.
- Reliable opening with a wide range of envelope
thicknesses (up to approx. 5 mm)
- Trouble-free processing of mixed mail
- Adjustable milling depth
(approx. 0.25 mm -1.75 mm)
- Convenient removal of envelope contents
- Counter: Can also be used as a letter counter
(without opening)
- Rotary knob for open/not open
- Simple, trouble-free operation

Automatic letter opener and counter **OL 750**

Opens and counts incoming mail: **quickly, securely and reliably**

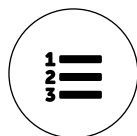

Opening with milling technology

The letter opener opens envelopes up to five millimetres thickness and works with the proven milling technology. This means that it completely mills the long side of each letter. Of course, the documents contained in the envelopes remain untouched and the milling process does not produce any sharp cut edges, which makes it easier to remove the letters. You can adjust the milling depth individually on the machine.

Automatic alignment

The OL 750 automatically feeds the letters and aligns them correctly. The easy-to-operate device works reliably, quickly and accurately and also processes mixed mail.

Just count the letters

In addition, the OL 750 can also count your letters without opening them. Just press a button and the letter opener becomes a letter counter only.

Important technical data

Features	OL 750
Speed max.	up to 400 envelopes/minute
Envelope sizes	up to B4
Envelope thickness max.	up to approx. 5 mm
Dimensions without tray (L x D x H)	1030x419x363 mm
Weight	23.6 kg
Power supply	220-240 V / 50 Hz

(subject to technical changes)
