

TF MEGA-S

Folding machine

TF MEGA-S

Folding machine

Quick, versatile and reliable

The TF MEGA-S is the ideal, inexpensive and versatile folding solution in the office or in any room. Due to its solid and robust construction even higher volumes of documents can be processed.

Solid, reliable, precise and economic

The TF MEGA-S can process 4 different fold types. The adjustment is done with the help of the self explaining fold type scale at the fold plates. An additional find adjustment is available at both fold plates – if necessary. There is also the possibility to adjust the fold parallelity to enable perfect folding results. The TF MEGA-S is not only easy to handle; it is also equipped with more, amazing, features, such as

- fully closed fold plates for low noise level
- durable feeding rolls
- big adjustable conveyor stacker for up to 200 sheets
- display with counter and pre-counter

Highlights of the TF MEGA-S

- 2 fold plates with quick adjustment of fold type/find adjustment and self explanatory fold type scale
- find adjustment of the fold parallelity (sewing)
- Central paper width adjustment
- „Paper-out“ and jam detection
- Double sheet prevention
- Display with 4 digit counter, pre-counter and status display
- Adjustable conveyor stacker for up to 200 sheets

Completely cased fold plates for silent and secure operation. Symbols for quick adjustment of the fold types and additional fine adjustment

Feeding station for up to 200 sheets with possibility of adjusting the fold parallelism

Big, adjustable conveyor stacker for up to 200 sheets

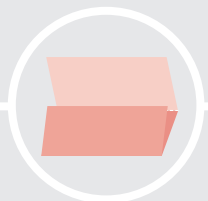

Important technical data

Paper width, Paper length	85x100 mm, 225x360 mm
Paper weight	about 50 - 150 g/m ²
Fold types	Single, wrap, Z- and double parallel fold
2 fold plates incl. adjustment of fold plate and fine adjustment	yes
Fine adjustment of the fold parallelity	yes
Feeding station / capacity	about 200 Blatt (80g/m ²)
Conveyor stacker / capacity	about 200 Blatt (80g/m ²)
4-digit display	yes – with status indication, counter and pre-counter
Paper end stop	yes
Speed	up to 6.900 foldings/h
Dimensions (BxTxH)	758 x 378 x 460 mm
Weight	20 kg
