

DevOps Engineer (m/f/d)

Permanent employee, full-time, immediately – Berlin

Your tasks:

- You are responsible for deploying and running the NeoMonitor platform
- Work tightly with the Technical Product Manager assuring that the developed product meets the user expectations regarding typical non-functional requirements such as availability, security, robustness, scalability and others
- Consult the Product Owner and the Technical Product Manager regarding the best and most lean way to develop, deploy and run new features
- Together with the dev team and the Technical Product Manager you define the incorporated cloud services and aim to keep technical debt low
- Together with the product team you evaluate the needed software licenses and services
- You are a sparring partner to both the product team and the project team as the expert for the product and service infrastructures end to end
- Participate in customer projects and solution testing where suitable
- Create and run a monitoring system for the product related services.
- React on system alerts and fix issues yourself and / or commission our service providers
- Consult the organization on the SLAs of our service providers
- Head internal IT-infrastructure tasks that the Group IT does not cover
- Manage all the software licenses NeoMonitor utilizes and that are not covered by the Group IT
- You strive for quality and do your best to reach the highest system reliability
- You support continuous improvement by giving feedback to methods and processes
- You are only happy when a functionality brings value to an end user

Your skills:

- Profound knowledge of MS Azure based Architectures and how to monitor them.
- Highly service oriented with exacting standards regarding customer satisfaction
- Proficient in automation of CI/CD processes
- Familiar with common network infrastructures
- Skilled communicator with both technical and non-technical persons (written & verbal)
- Strong focus on lean solutions and the minimum viable implementation
- Very good understanding of agile development processes (Scrum, Kanban)
- You feel comfortable communicating in English, German is a big plus
- You fully embody the agile mindset and accept the values proposed in the agile manifesto (you will be asked to accept those values upon joining)
- You are curious and keep yourself up-to-date, you like to learn about new methodologies, tools and technologies

About us:

FP NeoMonitor GmbH i.G. is a new founded 100% subsidiary of Francotyp Postalia. We set out with our team to deliver customer value and grow by applying lean startup and agile principles. The offerings will be aligned with market demand and their value proposition realized through customer-centric validation.
