

## Technical Product Manager (m/f/d)

Permanent employee, full-time, immediately – Berlin

### Your tasks:

- As a pivotal part of the product team you define architectural product backlog items and determine acceptance criteria
- Steering internal and external software developers in order to keep the goals on quality, time and budget
- You create test plans and evaluate implementation recommendations and making own recommendations for implementations
- Together with the dev team and the DevOps Engineer you define the incorporated cloud services and aim to keep technical debt low.
- Together with the DevOps engineer you evaluate, order and manage needed software licenses and services.
- You document the product and system on a technical level
- You inform the Product owner about technical risks and prepare decisions
- Participate in user requirement workshops
- Participate in customer projects where suitable
- The team can seek your support on how to follow best practices, design patterns and how to avoid antipatterns
- You strive for quality and do your best to reach the highest system reliability
- You support continuous improvement by giving feedback to methods and processes
- You are only happy when a functionality brings value to an end user

### Your skills:

- Profound programming experience and the hunger to learn new programming languages
- Proficient with relational and non-relational database systems
- Experienced with IaaS Cloud services (MS Azure preferred)
- You are very familiar with different backend design patterns
- Skilled communicator with both technical and non-technical persons
- Strong focus on lean solutions and the minimum viable implementation
- Very good understanding of agile development processes (Scrum, Kanban)
- You know how to support the team in the estimation processes
- You feel comfortable communicating in English, German is a big plus
- You fully embody the agile mindset and accept the values proposed in the agile manifesto (you will be asked to accept those values upon joining)
- You are curious and keep yourself up-to-date, you like to learn about new methodologies, tools and technologies

### About us:

FP NeoMonitor GmbH i.G. is a new founded 100% subsidiary of Francotyp Postalia. We set out with our team to deliver customer value and grow by applying lean startup and agile principles. The offerings will be aligned with market demand and their value proposition realized through customer-centric validation.
