

Automatic letter opener OL 220

The "little one" with an amazing performance

Take-off from the stack
Thanks to the self-aligning feeder, the daily mail can be inserted without pre-sorting.

The professional and safe way to handle your incoming correspondence automatically, fast and reliable

Opening letters manually means, wasting time of the operator and getting the job of in-house mail distribution just done with a real time delay.

The solution is the fast automatic letter opener HEFTER Systemform OL 220. A profitable solution for about 25 letters a day or more!

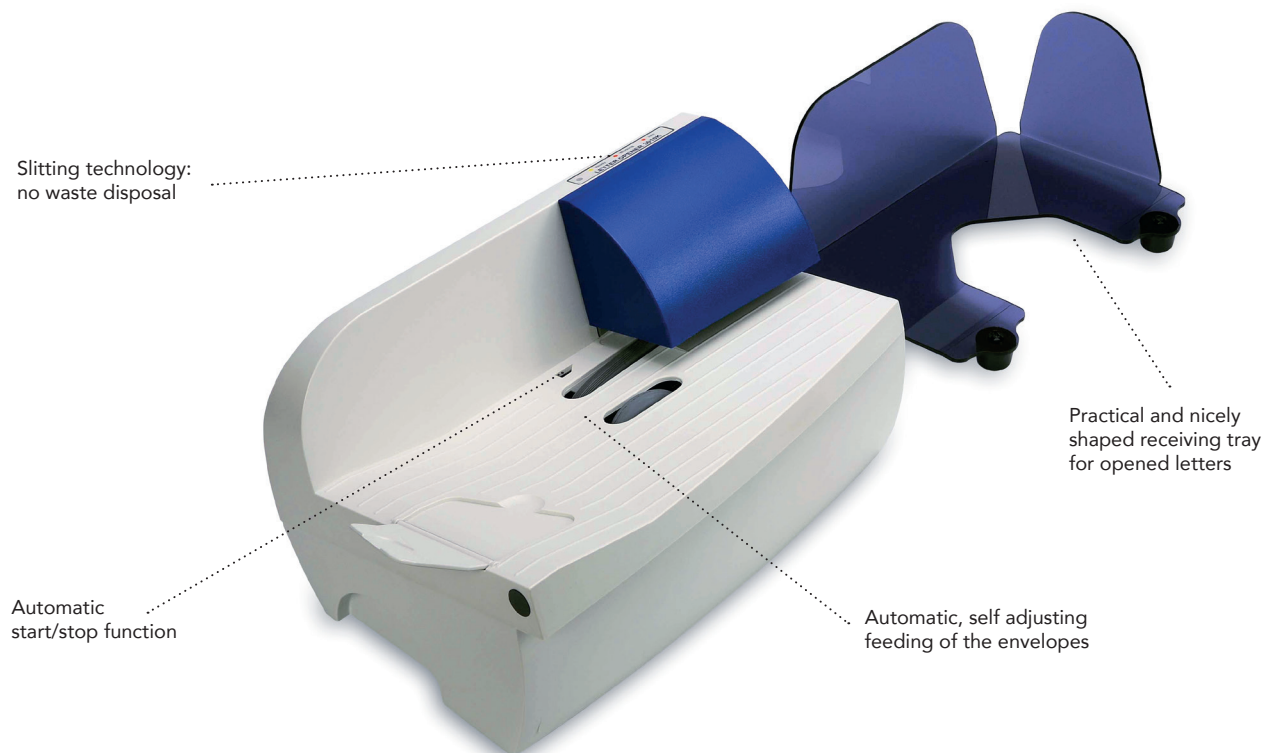

The OL 220 opens your letters with the slitting technology. The advantage is that there is no paper waste. Envelopes of different formats up to 4 mm thickness are being opened reliably thanks to the self adjusting envelope feeding.

Unpack, plug and the opening process can start!

- Big tray with automatic, self adjusting feeding of your incoming mail up to B4 size
- Automatic start/stop function
- Reliable opening function of mixed mail thickness up to 4 mm
- The envelope is opened from the very left to the very right side
- Easy access to the content of the envelope
- Slitting technology: no waste disposal
- Practical receiving tray
- Silent operation

Automatic letter opener OL 220

Automatic, economic, quick, reliable and clean

Safe opening

The cutting width is precisely determined by means of an adjustment knob. The contents remain absolutely undamaged.

Deduction from the pile

Mixed daily mail (up to B4 envelope format) can be easily created without sorting is not required.

Fast and reliable

The machine opens up to 200 letters per minute.

Clean

The cuttings container can be easily removed for emptying – your workplace always remains clean.
