

**Custom Tissue Imaging:**

**ACUSON S2000™ ultrasound systems:** Release 2.0 software is required for this application (customers who own Fatty Tissue Imaging (FTI) will migrate to CTI automatically on purchase of Rev 2.0 software). It is highly recommended that CTI is used combination with eSie Touch™ elasticity imaging.

*Please Note: Additional technical pre-requisites may apply. Upon receiving your request, your local Siemens representative will clarify whether your system meets the requirements.*
