

Open your practice to the possibilities of whole-body, simultaneous molecular MR

**Introducing Biograph mMR — MRI and PET in one exam**

Now available at ABC Imaging Center in Townsville | 000.000.0000 | [www.abcimaging.com](http://www.abcimaging.com)

## Think of the possibilities for your practice and patients.

Boost your diagnostic confidence with a simultaneous MRI and PET scan. With the Biograph mMR, whole-body MRI and PET have been fully integrated and precisely aligned. Acquire breathtaking images and insights into the progress of disease. It will give you a more complete picture with a precise alignment of anatomy, function and metabolic activity. Having a more complete picture of your patient's progress, from detection and planning through monitoring and follow-up, is now possible.
