

MRI and PET are one.

Simultaneous MRI and PET
scanning with a 3T magnet

Fast exams

More complete
diagnostic picture

Lower radiation dose than
some other imaging exams

Biograph mMR

Now showing at our **OPEN HOUSE:**
PET and MRI scanning across the
body in **ONE** exam.

It's the first system to perform simultaneous, whole-body MRI and PET exams. Biograph mMR provides faster results and a more comprehensive image for you, and one exam and a more confident diagnosis for your patients.
