

**Reduce re-admission rates
by acquiring accurate
diagnostic images – fast**

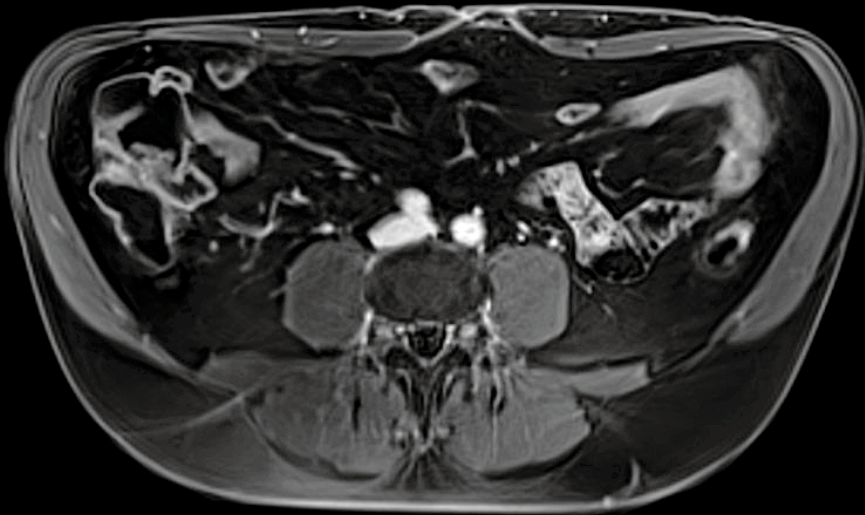

Visit ABC Imaging Center, Townsville, USA, 000-000-0000

With our new technology FREEZEit!

It allows to reliably scan patients from the very first shot – even patients with limited breathhold capacities such as elderly, very sick patients, and children. This will greatly support you in making the right therapeutic decision and enhance the clinical outcome for you and your patients.

52-year-old female with Morbus Crohn (follow-up)
