

Invitation

Digital Breast Tomosynthesis Reader Training

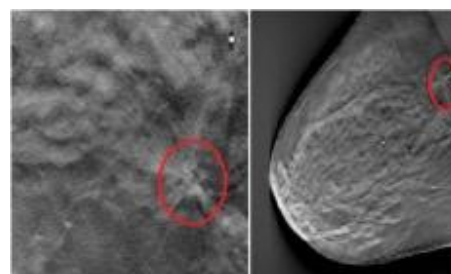

Thursday 4th February and Friday 5th February 2016
12:00 on Thursday - 18:00 on Friday

The Nightingale Centre, Wythenshawe Hospital, Southmoor Road, Manchester, M23 9LT

This "INSPIRATION"al study day is for Radiologists and Advanced Practitioners who desire to gain knowledge and experience in the reading and interpretation of Tomosynthesis images.

Topics covered include:

- Physics of Digital Breast Tomosynthesis
- The evidence base for Digital Breast Tomosynthesis
- Digital Breast Tomosynthesis in clinical practice
- Future developments and latest system updates
- Reading sessions - hands-on reading of test sets
- Practical self assessment of test sets with feedback

This event will afford to you the exciting opportunity to learn first-hand from the vast experience of Consultant Breast Radiologists Dr Anthony J Maxwell and Dr Yit Lim (The Nightingale Centre) and Principal Clinical Scientist Will Mairs (The Christie Hospital Manchester) - all renowned and well known experts in their fields.

Fee: £300
