

## Oracle Java Technology Restrictions

Licensee shall not create, modify, change the behavior of, or authorize licensees of Licensee to create, modify, or change the behavior of, classes, interfaces, or sub-packages that are in any way identified as “java”, “javax”, “sun” or similar convention as specified by Oracle in any naming convention designation. In the event that Licensee creates an additional API(s) which: (a) extends the functionality of a Java Environment; and (b) is exposed to third party software developers for the purpose of developing additional software which invokes such additional API, Licensee must promptly publish broadly an accurate specification for such API for free use by all developers.

Licensee is not authorized to use any Oracle America Inc. name, trademark, service mark, logo or icon. Licensee acknowledges that Oracle owns the Java trademark and all Java-related trademarks, logos and icons, including the Coffee Cup and Duke (“Java Marks”) and agrees to; (a) comply with the Java trademark Guidelines at <https://www.oracle.com/legal/trademarks.html>; (b) not do anything harmful to or inconsistent with Oracle’s rights in the Java Marks; and (c) assist Oracle in protecting those rights, including assigning to Oracle any rights acquired by Licensee in any Java Mark.

Programs may contain source code that, unless expressly licensed for other purposes, is provided solely for reference purposes pursuant to the terms of Licensee’s Agreement. Source code may not be redistributed unless expressly provided for in the terms of Licensee’s Agreement.

Additional copyright notices and Agreement terms applicable to portions of the Programs are set forth in the THIRDPARTYLICENSEREADME.txt file.

Use of the Commercial Features for any commercial or production purpose requires a separate Agreement from Oracle. “Commercial Features” means those features identified in Table 1-1 (Commercial Features In Java SE Product Editions) of the Programs documentation accessible at <http://oracle.com/technetwork/java/javase/documentation/index.html>

Oracle or its licensors retain all ownership and intellectual property rights in the Programs.
