

# ISO 27001 for teampay applications

## Certified information security

### The teampay performance management applications are certified for ISO 27001.

teampay applications for performance management in healthcare help the administration of radiology departments to make quick and well-informed decisions by offering a clear overview of your performance data.<sup>1</sup>

With this, teampay is now certified to be compliant to ISO 27001 with regards to secure design, development and operations of the teampay digital health platform and teampay performance management applications. Together with the [EuroPriSe](#) seal, and teampay supports hospitals being compliant to HIPAA (Health Insurance Portability and Accountability Act) and is compliant to the European GDPR (European Data Protection Regulation) this adds to our strong statement regarding security and privacy of our cloud products.

The data privacy and security framework: HIPAA<sup>2</sup>- and GDPR<sup>3</sup>- compliance meet EuroPriSe and ISO27001 certification.

ISO/IEC 27001 formally specifies an Information Security Management System (ISMS), a suite of activities concerning the management of information risks. The ISMS makes sure that the security arrangements are fine-tuned to keep pace with changes to the security threats, vulnerabilities and business impacts - an important aspect in such a dynamic field.

### The teampay performance management applications: powerful tools in simple dashboards

**teampay Dose:** Simplify your radiation dose management

**teampay Usage:** Increase your efficiency and expedite your imaging fleet utilization

**teampay Images:** Share and discuss images in a secure environment
