

OB/GYN

The Best of What Matters Most: A Smart Solution for OB/GYN

ACUSON X600 Ultrasound System

Without compromise, the ACUSON X600™ ultrasound system delivers what matters most: unparalleled quality of patient care and industry leading system reliability.

Engineered on a robust system architecture and with advanced state of the art technologies migrated from our premium system, the ACUSON X600 system sets a new standard of “standard” in imaging performance and workflow efficiencies, giving you the freedom to grow and adapt to the clinical demands in OB/GYN.

Advanced Imaging

Superb 2D imaging resulting from features like Advanced SieClear™ spatial compounding and Dynamic TCE™ tissue contrast enhancement technology optimized for OB/GYN provide exceptional detail and contrast resolution. With three new volume transducers and new workflow, the ACUSON X600 system provides enhanced 3D/4D image quality for clear visualization of complex fetal and maternal anatomy.

Built to Work Smart

With thoughtful engineering to create true value, the ACUSON X600 system offers reliability, ergonomic design and efficient workflow. The system provides quick access to frequently used controls and multiple customizations of imaging presets including measurement and reporting packages. Smart productivity features like *syngo*® Auto OB measurements simplify fetal biometrics measurements, saving up to 75% of key strokes* and providing consistency in data measurements.

Progress and Protection

Built on the solid foundation of proven reliability, the ACUSON X600 system delivers dependability so you can deliver the same to your patients. With low cost of ownership, it is a cost-effective core solution that can evolve and adapt with your OB/GYN practice.

The ACUSON X600 system gives you the freedom to choose a cost-effective, smart solution without compromises.
