

PEPconnections

Your smarter connection to knowledge management in digitalizing healthcare

Healthcare professionals must stay abreast of the latest advances in technology and care. Only then they can deliver a high level of patient care – reducing the likelihood of medical errors and omissions. But how can you customize, track and manage the education requirements of the entire medical staff in your institution?

Optimize staff and compliance management with a premium subscription to the workforce education management and administration features of **PEPconnections**¹.

- **Manage the education of entire teams or departments** – through the creation of tailored education plans as well as group assignment and tracking functionalities with a single solution
- **Personalize the education experience of individual employees** – with customizable education plans, combining education designed by Siemens Healthineers, your institution and independent education providers
- **Streamline audit preparation** – with instant access to dashboards and comprehensive reports on the education status of your team or department

Manage your staff's competency and skills with PEPconnections
