Would you like to learn more about Digital Breast Tomosynthesis and Contrast Enhanced Mammography?

Course XP8MAMVE

Costs: **350 EUR**

Register: Go to [siemens-healthineers.com/
mammography/education-training](https://www.siemens-healthineers.com/mammography/education-training)

Where: Virtual Training, online connection and microphone required

When: November 11–12, 2020 (both days 9 am – 1 pm CET)

**pending*

Join some of our most experienced experts:

- In-depth presentations
- Case discussions
- Lively interaction
- Virtual training
- CME accredited*

Expert speakers and case reviewers:

Dr. Maria Bernathova, Vienna

Prof. Dr. Chantal Van Ongeval, Leuven

Digital Breast Tomosynthesis and Contrast Enhanced Mammography Intensive Training

Learn from some of our most experienced clinical experts who will demonstrate how to use Digital Breast Tomosynthesis (DBT) and Contrast Enhanced Mammography (CEM) in the daily routine.

With a combination of in-depth presentations and comprehensive reading sessions you will learn how to evaluate 2D mammography and 3D tomosynthesis in case-based demonstrations. Additionally, you will discuss the use cases for of a morphological (DBT) vs. a functional (CEM) breast imaging method. In doing so, you will also become familiar with *syngo*.Breast Care applications and its reading tools.

Course content

- Technical background and image quality
- Clinical indications
- Morphology of lesions in 2D and 3D
- CEM – a functional imaging method
- Guidance on how to read
- DBT in screening incl. AI-based CAD (Computer Aided Detection)
- Interpretation sessions with approx. 80–100 cases
