

## Advance Plans. Your digital advantage starts now.

In healthcare, the pace of digitalization and software development is speeding up.

Medical devices are increasingly interconnected, and their value is more and more defined by digital features.

Having incompatible system software and hardware and being vulnerable to cyberattacks are among the most recent risks healthcare providers face.

That's why keeping medical equipment up to date is essential to enable:

Optimized clinical care

High workflow efficiency

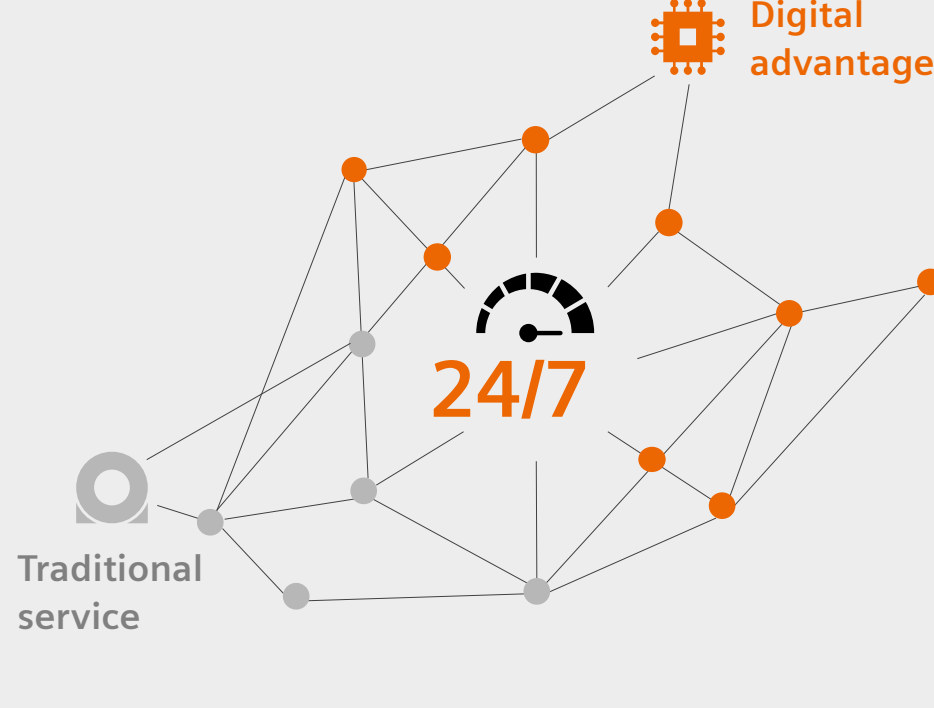

Reliable cybersecurity

## Our solution: Advance Plans

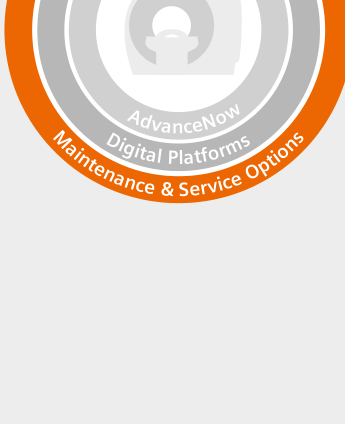

Advance Plans are our service agreements for medical equipment in the digital era.

With a smart combination of personal and digital support, Advance Plans keep your operations running smoothly and allow us to be right by your side 24/7.

## Discover the key components of Advance Plans

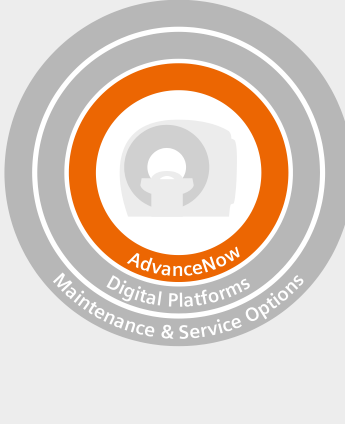

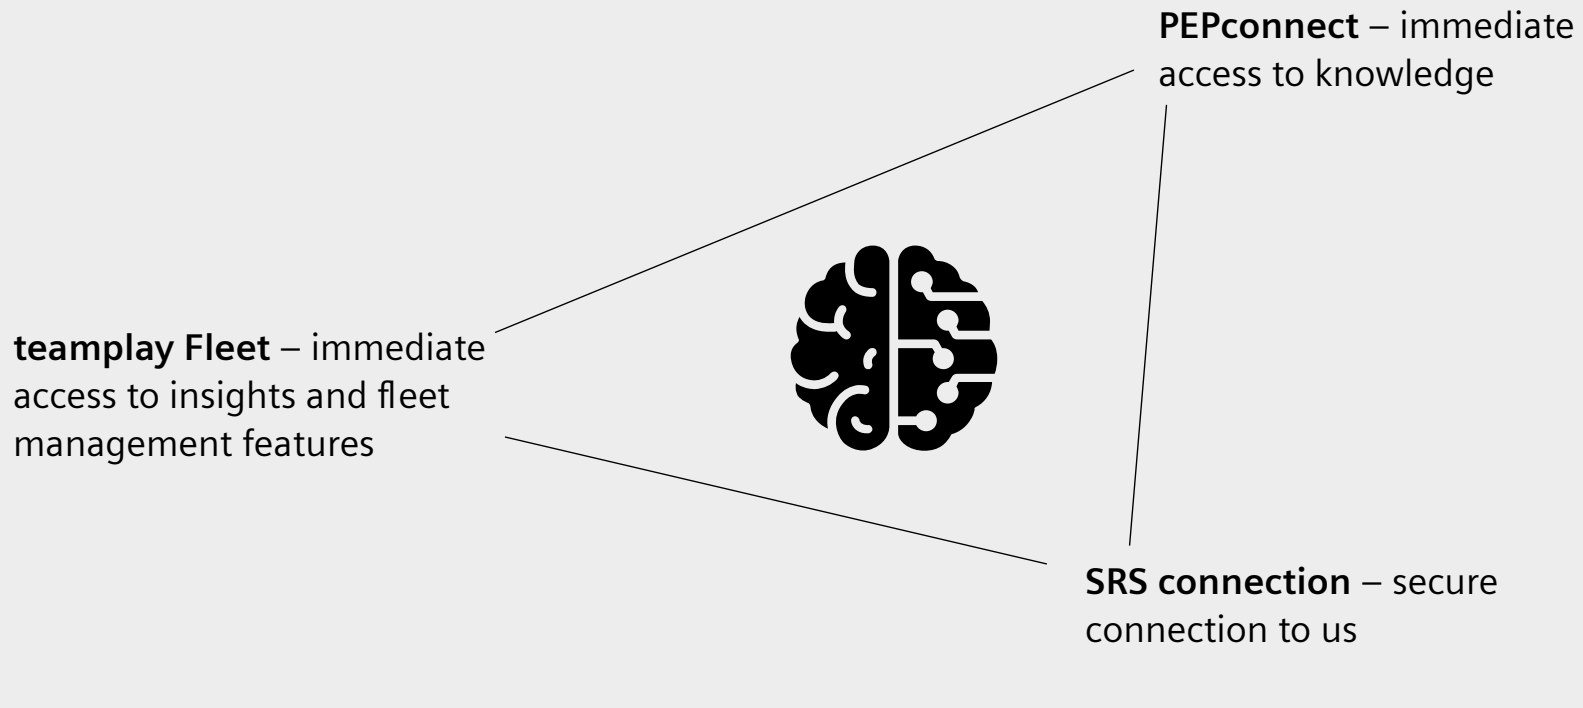

Advance Plans comprise a wealth of innovative and intelligent services that help you keep your medical systems cutting-edge, connected, and competitive.

Our **Maintenance services & service options** keep your systems up and operations running with:

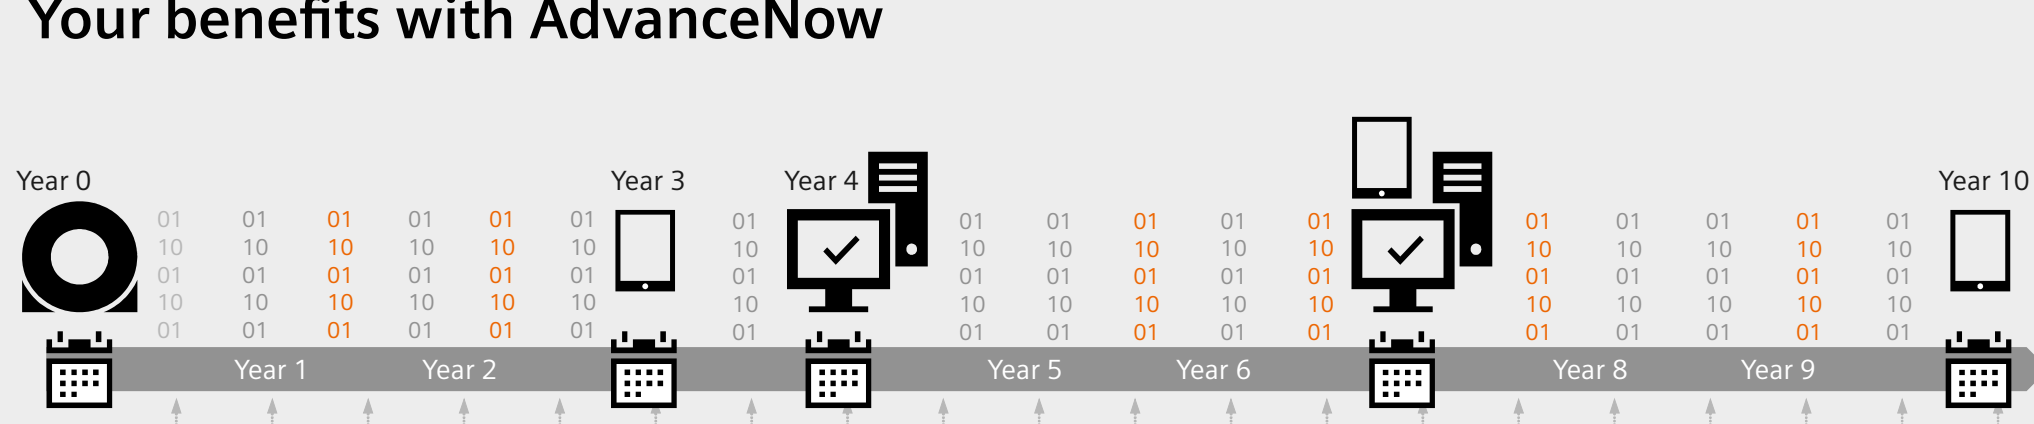

Our **Digital Platforms** are online touchpoints that bring our service closer to you:

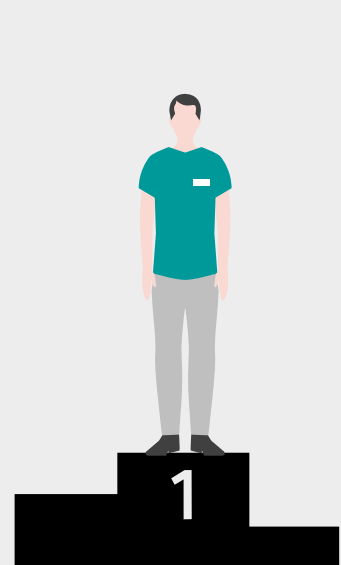

**New** **AdvanceNow** is the highlight at the core of our Advance Plans. The digitally driven update and upgrade service keeps your systems:

## Your benefits with AdvanceNow

Receive automatic software updates and upgrades as soon as they become available and computing hardware replacements when required

Gain easy access to clinical and digital innovations

Cybersecurity

Get regular patches that keep your imaging systems cybersecurity and patient data safe

## Advance Plans. Maximize efficiency in the digital era.

Be cutting-edge and keep your medical equipment ready for future clinical applications. Be connected and get fast support and instant access to know-how. And be competitive by leveraging intelligent services that keep your systems efficient and your clinical operations running smoothly. With Advance Plans.

Comprising a wealth of innovative and intelligent services, Advance Plans keep your equipment future-proof, cybersecurity, and highly efficient throughout its entire serviceable life. While they also cover your regulatory, quality, and financial needs.
