

A photograph of a modern classroom or study area. In the foreground, a woman in a brown top and a man in a blue sweater are looking at a book together. In the background, another woman is sitting at a desk with a laptop, and a man is sitting at another desk with a laptop. The room has large windows and whiteboards on the wall.

PRACTICAL. STRONG IN RESEARCH. DIVERSE.

STUDY IN HEILBRONN

Students from all over the world meet in Heilbronn. The city with its own flair, unique way of life and culture. It is where people meet people, technology meets business and where personal contacts and relationships are formed.

THE UNIVERSITY THAT CONNECTS

At the Heilbronn University you can feel the region's pulsating economic power. With its site in Sontheim and its campuses in Künzelsau and Schwäbisch Hall, the university is at the center of this dynamic and powerful economic region with its highly successful industries.

Modern teaching methods, innovative research and study programmes are all aligned to the needs of business and industry and make HHN graduates highly sought after by industry leaders. The entrepreneurial focus, the high quality of the studies, competence, practical relevance and personal commitment is unique and ensures Heilbronn University's high levels of success.

#DARUMHHN

Students from all over the world know why – they have been coming to this city of knowledge for years developing their economic and personal success.

Heilbronn University students have the choice of over 50 degree programmes in the fields of technology, economics and informatics. The university was founded in 1961 and now, with over 8,500 students is the largest university of applied sciences in Baden-Württemberg.

As part of a worldwide network of partner universities, students have a great range of opportunities to gain international experience.

YOUNG, MODERN, FUTURE-ORIENTED

Heilbronn is the center of learning and living in the Heilbronn-Franken region. In this young and modern city located on the banks of the River Neckar you can feel the dynamic and positive atmosphere. This is not new just a new development since the start of the digital age as Heilbronn has played an important pioneering role in Germany since industrialization. Today, this city in the heart of Europe is a sought-after location for innovative organizations.

The education sector is a dynamic and rapidly changing sector and this is especially evident with development at the campuses. The experiments in Heilbronn is the largest science center in Germany and provides access to an outstanding world of knowledge and experience.

LEARN AND LIVE. LIVE AND LEARN.

Science needs freedom and scope in which young people can develop and evolve together. New ideas emerge when the feeling of “we” is lived. Heilbronn University offers the ideal environment for this. Heilbronn, the city on the river Neckar, is surrounded by hills and vineyards and ideal for

sports and leisure activities of all kinds. Heilbronn is simply “quality of life” – open-air concerts, wine festivals, theatre festivals, museums and many beautiful cafés and restaurants – perfect for life before and after learning.

CAMPUS SONTHEIM

Campus Sontheim is the largest campus at Heilbronn University and has around 2,800 students of engineering and informatics. It provides tremendous scope for research and development; technical test benches, logistics hall, VR and numerous well-equipped research laboratories – the foundation for successful study. Prospective scientists work on systems and components of the future and are the scientific potential of regional technology transfer. The student secretariat, the examination office and the central advice center for students are all located at the Campus Sontheim.

BILDUNGSCAMPUS

At the Bildungscampus in the center of Heilbronn there are approx. 3,200 students of business administration at the Faculty International Business and the Faculty Business and Transport Management taking advantage of the modern, spacious and light rooms with the latest, state-of-the-art facilities.

In this university city there are other universities nearby so inter-universities facilities are offered and a cross-university library and canteen are now being built at the Bildungscampus.

The atmosphere for studying is second to none – welcome to Heilbronn University!
