

ACCESS² - APPLICATION TIMELINE

Before applying to Heilbronn University, international applicants require a validation of the educational credentials by the Studienkolleg - Center for International Students (free of charge). Make sure to start early as this process takes approx. 4 weeks.

Please contact Studienkolleg Konstanz with a written request that a certificate be sent to our faculty directly (see address on the right).

While the recognition of your certificates is in progress, contact us by e-mail to receive your application documents.

In your message, please include some short background information:

- Name & Nationality
- highest educational certificate (title)
- Level of language proficiency German and English (**please submit scans of certificates**)
- Target level of German course (B2 or C1)
- Any questions from your side ☺

Learning German will be an important part of your study preparation. Joining the right course level is first step to your success. Therefore, we invite all applicants to participate in a flexible and convenient online language test with our academic partner AIM (Academy for Innovative Education and Management). The test is free of charge and takes place at different times of day.

After taking steps 1-3, your application is almost complete! Make sure to send the complete application documents by post no later than June 1st to

Fakultät Mechanik und Elektronik
 Max-Planck-Straße 39
 74081 Heilbronn
 Deutschland

Alternatively, application by e-mail is possible to access2@hs-heilbronn.de

Certified copies of your certificates should be presented upon enrolment.
