

*The Viessmann Group is one of the leading international manufacturers of heating, industrial and refrigeration systems. This family enterprise, founded in 1917, has over 12,000 employees, and the group's turnover amounts to € 2.25 billion.*

*Viessmann refrigeration division is a leading European manufacturer of innovative refrigeration solutions for food retail, food services and other segments within commercial refrigeration. The comprehensive product and service portfolio includes cabinets, cold rooms and refrigeration systems as well as accessories and services. Over 800 professionals in the production sites in Germany and Finland provide high-quality refrigeration products and years of expertise in commercial refrigeration. From local sales companies in 18 countries the customers get comprehensive refrigeration solutions from a single source.*

## **Finance Manager/Økonomichef**

We are strengthening our team with a competent, business oriented finance professional who will be responsible for key finance functions. You will be a part of the Viessmann Refrigeration Systems Danish team in Hadsten and will be responsible for all finance related topics.

This is a hands-on position directly reporting to the Managing Director of Viessmann Refrigeration Systems Denmark as well as acting as a Business Partner to the North West region Finance Director.

### *Your key responsibilities:*

- Manage the monthly and quarterly financial reporting process internally as well as to corporate head office.
- Manage the cash flow cycle, bank relationships and insurances.
- Participate in and drive budgeting, forecasting and other key financial topics.
- Supervise the financial accounting, credit management and collection of receivables.
- Developing and implementing the company's system of internal controls, risk management, as well as ERP and accounting system.
- Establish controlling procedures and tools for sales & margin, service business, project business, costs of poor quality, fixed costs etc.
- Performing and managing employee payroll and benefits.
- Streamline routines and processes.

### *Your strengths:*

- You are proactive, entrepreneurial and service minded with good collaboration skills, including cross-border collaboration.
- You have the ability to see the "big picture" combined with the drive to be "hands on".
- You have a few years of work experience in accounting or finance preferred.
- You have a MSc/BSc level degree in finance, accounting, economics or business administration.
- You are proficient in MS Office and ERP/accounting systems, SAP experience is considered as an advantage. Advanced skills in Excel is a must.
- You are fluent in English, other languages such as Danish, German are an advantage.

- Strong analytical skills together with a structured, systematic approach.
- Your familiarity with M&A integration, including consolidation of accounting statements and processes is preferred.
- You are always looking for ways to improve, and coaching your team in how to get the best out of the finance tools.

*What we can offer:*

- This is an interesting and challenging role in a growing, customer-oriented international company.
- You will have a central position with various opportunities to influence profitability optimization and development of controlling and accounting capabilities including relevant IT systems.
- You will become an important part of the small team, learn with us and develop further.

*Are you up for this challenge?*

The role is a full-time position starting as soon as we find the right candidate.

If you are interested in this position please send us your CV and a motivational letter including salary expectations via LinkedIn no later than the end of May. Please note that we will start the interviews already before the due date.

Please note that as a part of the application process, candidates will be asked to take a talent assessment test to see if their background matches the company's requirements.

For more information on the position please call Christian Callesen (Managing Director Denmark) at +45 4120 5420 or Maria Karvonen (HR BP) at +358 4578 756970.
