

Multideck cabinet  
TectoPromo MD4 Visio

**VIESSMANN**

Boost sales with superior product visibility and display

## Promote with 360° visibility

TectoPromo MD4 Visio sets a new standard for the superior shopping experience. Large see-through glass surfaces, doors on both sides and effective, energy-saving LED lighting make it a real sales booster.

### High display value, optimised use of space

Allowing for various options of branding and in-store communication, TectoPromo MD4 Visio makes it almost impossible for the shopper to walk by. Its enormous capacity boosts display value and reduces the time needed for replenishment. And with castors, TectoPromo MD4 Visio is easy to move around. Ready to plug in, TectoPromo MD4 Visio optimises the use of floor space and suits both small and larger retail formats.

TectoPromo MD4 Visio replaces two conventional back-to-back coolers. This allows for more efficient design and layout while keeping the footprint to a minimum. Glass all around gives it a high degree of visibility and maximises the display area.

The excellent temperature performance together with the large glass expanses and effective LED lighting means the products get the attention and display they deserve. With options to include branding and in-store communication materials, TectoPromo MD4 Visio is a real sales booster.

The TectoPromo MD4 Visio two-sided plug-in multideck is suitable for all retail operations. It fits well in small stores where every square metre counts but also in bigger retail formats. TectoPromo MD4 Visio can be placed near the cash registers, as a centrepiece on the aisle, or any place where premium product display is needed.

### Choose TectoPromo MD4 Visio for

- Superior product visibility and display
- Impressive mass displays
- Suitability for every store format
- Ease of filling and handling

## Technical specifications

<b>External length (mm)</b>	1410
<b>External height (mm)</b>	1910
