TectoPromo SV2 Deli
TectoPromo MD3 Deli

Low height multideck ideal for fast-moving groceries

Because convenience now rules when it comes to food and beverages.

More sales from impulse purchases

TectoPromo SV2 and MD3 Deli impulse plug-in coolers are ideal both for hand-crafted delicacies and high volume, fast-moving products. TectoPromo SV2 Deli is a diverse cabinet series that slots into any retail store size or format. Several cabinet models can be used individually, lined up together and 'multiplexed' or arranged as an island to promote impulse shopping. Combination of ambient and refrigerated units create more touch points for shoppers leading to increased sales.

Glass end panels and attractive lighting illuminate the products on display. Shelves configured for PET bottles increase the display capacity for drinks and boost impulse shopping. Castors make TectoPromo SV2 Deli easy and light to move for different point-of-sale purposes.

Energy-efficient cooler

TectoPromo SV2 Deli cabinets are excellent when it comes to combining temperature performance and energy efficiency. Life cycle costs can be cut down with TectoPromo SV2 and MD3 Delis' energy-saving features such as low-energy fans and energy saving trim kit. Refrigerant R290 on the TectoPromo SV2 Deli model makes it energy efficient as well as a good investment saving up to 15% compared to hydrofluorocarbon models.

TectoPromo SV2 and MD3 Deli are available as a plug-in cabinets in a wide range of colours and branding options.

Choose TectoPromo SV2 Deli for

- Excellent lighting for exceptional good product visibility
- Possibility to create more touch points for customers to increase sales
- Integral design to combine refrigerated and ambient units
- R290 refrigerant on TectoPromo SV2 Deli
- Simple and easy installation
- Many model options for any store concept to optimise the use of floor space
- Several branding, colour and accessory options
