Thieme Medical E-Journals

Thieme Medical E-Journals deliver fast, searchable access to tables of contents, abstracts, and full text for academic, medical, research, and healthcare professionals. The interactive platform is optimized for PCs, tablets, and smartphones, keeping users current on the latest developments.

The screenshot displays the Thieme Medical E-Journals website interface. Callouts point to various features:

- Search journal contents**: Points to the search bar at the top right.
- RSS and Social Bookmarking**: Points to the RSS icon and social media links.
- Create a personal account**: Points to the 'Not Logged In' button.
- Advanced search options**: Points to the 'Full-text search' dropdown.
- eFirst**: Points to the 'eFirst' tab in the article navigation bar.
- View full text in HTML or PDF format**: Points to the 'Full Text HTML' and 'Full Text PDF' buttons.

The main content area shows the 'Endoscopy' journal cover for Issue 10, Volume 58, October 2026. Below the cover is a list of issues for the year 2026. The 'Original article' section features a study titled 'Gastric fundal mucosal ablation followed by endoscopic sleeve gastroplasty in adults with obesity: a first-in-human two-phase pilot clinical trial' by Gadil, Sanjay R. V., et al. The article includes a summary, a graph showing 'Mean free plasma ghrelin' levels, and a table of 'Key results at 6 months' comparing ESG vs. semaglutide.

Study design	Mean %TBWL at 6 months	Key results at 6 months
Retrospective cohort N = 150 adults with obesity	13.3	ESG vs. semaglutide

A personal account can be created to benefit from a multitude of services, including eFirst, SDI-Alerts and RSS feeds to inform users of important results in their fields of interest. Searches within Thieme E-Journals and access to the tables of contents and abstracts are provided free of charge.
