Thieme E-Journals

Thieme E-Journals are critical for research and information needs of universities and research facilities focusing on organic chemistry and bioscience. Our interface, presents graphical tables of contents, abstracts, and full text in HTML or PDF format.

Users will be kept abreast of cutting edge developments with fast and efficient online delivery and powerful searching tools.

Users may register to benefit from a multitude of services including:

- Customized interface
- eFirst and table of contents alerting services
- SDI (Selective Dissemination of Information) – alerting you to important results in your field of interest
- RSS feeds

The screenshot displays the Thieme E-Journals website interface. Callouts highlight the following features:

- eFirst**: Points to the 'eFirst' tab in the article navigation bar.
- Search journal contents**: Points to the search bar at the top of the page.
- Create a personal account**: Points to the 'Not Logged In' link in the top right corner.
- Advanced search options**: Points to the search bar and the 'Full-text search' dropdown menu.
- View full text in HTML or PDF format**: Points to the 'Full Text HTML' and 'Full Text PDF' download buttons at the bottom of the article page.
- RSS and Social Bookmarking**: Points to the RSS, email, and social media icons on the right side of the article page.

The main content area shows the **Synlett** journal cover for Issue 18, Volume 36, November 2025. The **Table of Contents** section lists the article: 2971 Kojima, Yuki; Hirano, Koji: Asymmetric Construction of the C(sp³)-SCF₃ Motif by CuH-Catalyzed Hydrofunctionalizations of 1-SCF₃-Alkenes. The article includes a chemical reaction scheme showing the catalytic generation of an α-SCF₃ alkylcopper intermediate, which then undergoes either hydroboration or hydroallylation to form the final product.

A personal account can be created to benefit from a multitude of services, including eFirst, SDI-Alerts and RSS feeds to inform users of important results in their fields of interest. Searches within Thieme E-Journals and access to the tables of contents and abstracts are provided free of charge.

For an overview of all available E-Journals, please visit: www.thieme-connect.com/products

Subscription Journals: Organic Chemistry

SYNTHESIS SCR Available!

- Single-anonymous peer-reviewed Impact Factor-journal
- **Model:** Hybrid Open Access
- **Issues per year:** 24
- **Topics:** organic synthesis, catalysis, medicinal, biological, organometallic chemistry, and photochemistry, and related disciplines
- **Article Types:** Original Papers, (Short) Reviews, Features, PSPs, Special Issues
- **Backfiles available starting from:** 1969

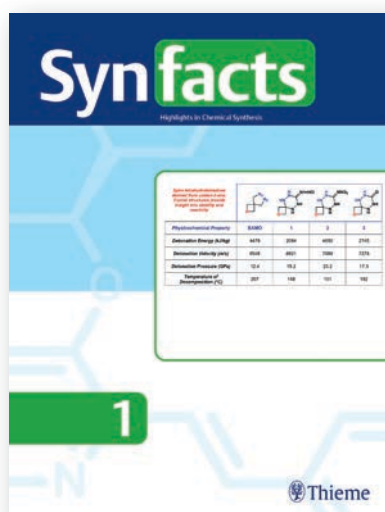

[Learn more > thieme.com/synthesis](https://thieme.com/synthesis)

SYNLETT SCR Available!

- Single-anonymous peer-reviewed Impact Factor-journal
- **Issues per year:** 20
- **Model:** Hybrid Open Access
- **Topics:** organic synthesis, catalysis, medicinal, biological, organometallic chemistry, and photochemistry, and related disciplines
- **Article Types:** Accounts, Synpacts, Clusters, Letters, New Tools, Perspectives
- **Backfiles available starting from:** 1969

[Learn more > thieme.com/synlett](https://thieme.com/synlett)

SYNFACTS

- Reports select and enriched publication summaries from various journals
- Supports teaching activities and examination preparation
- **Issues per year:** 12
- **Covered areas of synthesis:** Natural Products, Heterocycles, Materials and Unnatural Products, Metal Catalysis, Stereoselective Reactions, Organo- and Biocatalysis, Polymer-Supported Synthesis
- **Backfiles available starting from:** 2005

[Learn more > thieme.com/synfacts](https://thieme.com/synfacts)

Subscription Journals: Bioscience

Planta Medica

SCR Available!

- Single-anonymous peer-reviewed Impact Factor-journal
- **Issues per year:** 15
- **Model:** Hybrid Open Access
- **Topics:** biological and pharmacological activity, pharmacokinetic and clinical studies, natural product chemistry, analytical studies
- **Backfiles available starting from:** 1953

[Learn more > thieme.com/plantamedica](https://www.thieme.com/plantamedica)

Pharmacopsychiatry

- Single-anonymous peer-reviewed Impact Factor-journal
- **Issues per year:** 6
- **Model:** Hybrid Open Access
- **Topics:** psychotropic drugs, (clinical) pharmacology, neuro and psychophysiology, psychology and neurobiology, (geronto)psychiatry
- **Backfiles available starting from:** 1968

[Learn more > www.thieme.com/pharma](https://www.thieme.com/pharma)

Drug Research

- Single-anonymous peer-reviewed Impact Factor-journal
- **Issues per year:** 9
- **Model:** Hybrid Open Access
- **Topics:** drug development and analytics, bioavailability, (bio)chemistry, bioequivalence, drug interactions, efficacy testing, teratology, toxicology, and related areas
- **Backfiles available starting from:** 1999

[Learn more > www.thieme.com/dre](https://www.thieme.com/dre)

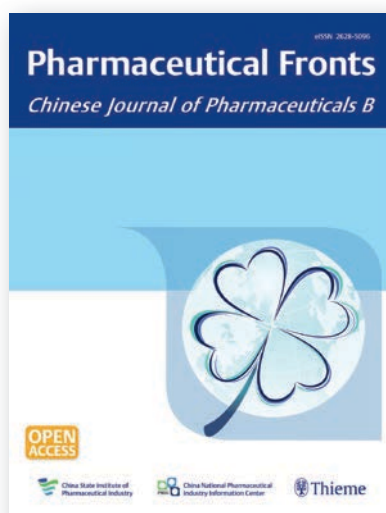

Open Access Journals: Chemistry, Sustainability & Bioscience

SynOpen SCR Available!

- Single-anonymous peer-reviewed Impact Factor-journal
- **Model:** Open Access
- **Article Types:** full paper, letter, review, and graphical reviews
- **Topics:** synthetic methodologies, photochemistry, medicinal chemistry, polymer synthesis, computational methods, processing techniques, and related areas
- **Published since:** 2017

[Learn more > thieme.com/synopen](https://www.thieme.com/synopen)

Pharmaceutical Fronts

- Single-anonymous peer-reviewed journal
- **Model:** Open Access
- **Article Types:** Original Articles, Reviews, Commentaries, Short Communications
- **Topics:** drug and synthesis technology, green and medicinal chemistry, biopharmaceuticals, analytical sciences, pharmaceutical sciences and formulation technology, engineering innovations, process safety and regulatory sciences
- **Published since:** 2019

[Learn more > thieme.com/pf](https://www.thieme.com/pf)

Sustainability & Circularity NOW SCR Available!

- Single-anonymous peer-reviewed journal
- **Model:** Open Access
- **Article Types:** Original Articles, Rapid Communications, (Short) Reviews, Industrial Case Studies & Policy Reports
- **Topics:** sustainable design, green manufacturing and engineering, biobased and circular plastics, renewable clean energy, life-cycle assessment, sustainable industrial processes, and related areas
- **Published since:** 2024

Backfiles

Thieme backfiles provide crucial clinical information directly to your desktop, ensuring that your institution's collection is accessible, comprehensive, and complete. Institutions can access Thieme backfiles by purchasing them on a per journal basis or as a complete package, paying a one-time fee.

e► First

Selected journals publish articles online ahead of print publication through our eFirst service. eFirst articles are available immediately following completion of the peer review process, providing expedient access to critical research results.

OPEN ACCESS

Thieme's offer covers both fully open access journals, as well as articles published on an open access basis in our subscription journals. All open access content published by Thieme is permanently available online.

All our open access journals are subject to thorough, independent peer review. Our open access articles meet the same high quality of editorial, author and production services you are used to from Thieme.

Visit www.thieme.com/openaccess for information about all our open access titles.

Compatibility

Licensing

- Available to institutions through the internet
- COUNTER compliant usage statistics
- Unlimited campus- or site-wide access
- Archived in PORTICO
- Custom branding with a library or institution logo
- Preserved in CLOCKSS
