

MedOne Radiology

MedOne Radiology

Since 1896, when Thieme published Roentgen's first human x-ray, Thieme has been putting medical imaging specialists first. With an eye to this tradition of excellence, MedOne Radiology maintains Thieme's place at the vanguard of medical imaging by bringing quality, cutting-edge resources to specialists worldwide.

MedOne Radiology provides core content for residents and practitioners. It includes access to a wealth of books, journals, board review content with interactive Q&A, and thousands of cases covering breast, cardiac, emergency, gastrointestinal, genitourinary, head and neck, interventional, musculoskeletal, neuro, nuclear, pediatric, thoracic, and ultrasound imaging.

What MedOne can do:

For the specialist

- Explore innovative topics in radiology
- Discover new modalities and approaches
- Stay on top of the latest research
- Identify differential diagnoses

For the resident

- Master case work-ups and findings
- Brush up on essential imaging procedures
- Evaluate comprehension for test-taking
- Compare radiological images

For the institution

- Cultivate a culture of learning anytime
- Focus on improving patient care quality
- Appeal to prospective residents and faculty
- Build support for individual growth

Hundreds of thousands of clear, high-quality images

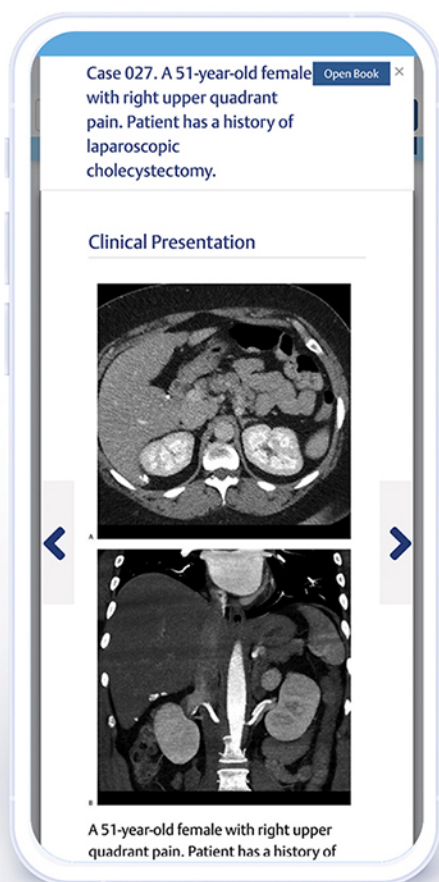

Your ultimate medical imaging resource

Before seeing patients

Review the most effective breast cancer screening methods or the latest advances in IR procedures for pain management. The wealth of images, videos, and text are comprehensive, didactic, and created by expert radiologists.

With the boards approaching

Easily accessible board review content makes studying a breeze. Review cases, differential diagnosis, and much more—including thousands of multiple-choice Q&A, with answer explanations, in an intuitive, feature-heavy interface. MedOne's robust review content is ideal for residents, or anyone needing to review radiology.

Download the **MedOne App** for on-the-go learning!

When writing, presenting, or teaching

As you research, download content as a PDF or PPT slides with automatically included bibliographic info that's compatible with reference manager software. MedOne's Playlist feature lets you save and organize content for yourself, or to share with students and colleagues.

Everyday

Review cases, browse the latest research, read a chapter or quiz yourself. The depth of content is easily searchable, and with the ability to highlight, take notes, plus access remotely or offline through the MedOne App, you can review the exact information you need, when you need it – making MedOne the ultimate daily reference.

Including RadCases

Thousands of clear, consistent cases are organized by subspecialty. Easily navigate and manage your progress with the personal checklist feature. Covering breast, cardiac, emergency, gastrointestinal, genitourinary, head and neck, interventional, musculoskeletal, neuro, nuclear, pediatric, thoracic, and ultrasound imaging.
