Change in the regulation of corona-related non-participation in examinations

Dear Students,

Since the beginning of the semester, we have been so pleased to welcome you back to Germany’s most beautiful campus and are delighted that you are now again filling the Bayreuth and Kulmbach campus with life after several semesters of coronavirus. The return to normality is well on its way, and today we wish to inform you about another step in this direction. The following change regarding *corona-related non-participation in an exam* is to be implemented: *Please use the certification function via cmlife in future.*

In the 2021/2022 winter semester, the rule was that non-participation in an examination due to coronavirus had to be reported and documented immediately with the examination office by simple e-mail (e.g. due to an isolation order or quarantine obligations). The non-participation was merely "made plausible", i.e. the reasons had to be communicated to the examination office accordingly and explained in a comprehensible manner.

For examinations **from 15.06.2022 onwards**, this notification of coronavirus-related non-participation in examinations must be made via the certification function on cmlife ([https://my.uni-bayreuth.de/cmlife/welcome](https://my.uni-bayreuth.de/cmlife/welcome)). **An e-mail to the Examinations Office will therefore no longer be sufficient.** We kindly ask you to take note of this in the future.

Best regards, have a sunny summer semester, and good luck with your exams!

Yours faithfully,

Professor Dr. Stefan Leible  Professor Dr. Martin Huber

*President*  *Vice-President for Learning & Teaching*
