

# Connectivity installations at Lufthansa Technik

By the end of 2026 Lufthansa Technik will complete 300+ connectivity installations.

Want to equip your fleet with the fastest in-flight internet connection the market has to offer? Are you looking to update your existing IFC system? Our experts have accompanied every major evolution of inflight connectivity over the past two decades.

## Global reach. Flexible options.

Our global maintenance network offers connectivity installation options across multiple locations.

| Facility      | Bays | Airbus    |          |      |          |      |      |      | Boeing |         |     |     |
|---------------|------|-----------|----------|------|----------|------|------|------|--------|---------|-----|-----|
|               |      | NB        |          | WB   |          |      |      |      | NB     |         | WB  |     |
|               |      | A320 fam. | A320 neo | A330 | A330 neo | A340 | A350 | A380 | 737NG  | 737 MAX | 777 | 787 |
| Budapest BUD  | 5    | ✓         | ✓        |      |          |      |      |      | ✓      | ✓       |     |     |
| Malta MLA     | 5    | ✓         | ✓        | ✓    |          |      | ✓    |      |        |         |     | ✓   |
| Sofia SOF     | 8+   | ✓         | ✓        |      |          |      |      |      | ✓      |         |     |     |
| Manila MNL    | 7+   | ✓         | ✓        | ✓    | ✓        | ✓    |      | ✓    |        |         | ✓   |     |
