THE FUTURE OF EDGE COMPUTING

At the Edge Computing Forum the latest technological advancements in the areas of Edge Intelligence, Edge Computing, Fog Computing and autonomous Cyber-physical Systems will be presented alongside best practices and experiences gained from recent testbeds and trials. Leading experts from standards-developing organizations, innovators, first movers and, early adopters present their newest achievements and discuss open issues.

Major focus areas include:
– Scientific Perspective on State-of-Play of Edge Computing Research
– Real-time Edge Connectivity & Communication
– Edge Intelligence, Data Analytics and Security
– Edge Computing Platforms, Edge Cloud Management and Orchestration
– Edge Computing Best Practices and Use Cases, Experiences gained from recent Testbeds and Trials
