Sincerely Yours,

Daniel Ilie Gheorghe Pop (Fraunhofer FOKUS), in collaboration with Fraunhofer IIS and the NGMN Alliance, will be live-streamed under the link below:

@Telegraphen_Lunch from DT AG

Prof. Dr. Thomas Magedanz (Fraunhofer FOKUS/TU Berlin)

Talk about the latest technology trends with Prof. Dr. Thomas Magedanz, Senior Advisor at the Fraunhofer FOKUS Institute, and discuss the current challenges in the network infrastructure.

Join the 2nd IIoT Forum, November 14th 2018 in Berlin, meet representatives from major IIoT players such as LNI4.0, National Instruments, Ericsson, B&R Industrial Automation, Bosch, Siemens, and others.

The forum will cover the following topics:

Preparing Industry Verticals for Edge Computing, Industrial Internet and 5G to show you how this can be done.

Future Industrial Internet - How future standards, technological IIoT advancements, softwareization, edge computing, network slicing, zero touch/automatic deployment, and orchestration can help shape the Industry 4.0.

Major focus areas include:

- TSN Testing and TSN Testbeds
- Communication over TSN Networks
- OPC UA over TSN and Asset Administration Shells
- Edge Computing Best Practices and Use Cases, and Orchestration
- TSN for Industrial Applications
- Industrial IoT Framing
- Workshops: Industrial IoT Forum 2018

And the associated Chair

November 13, 2018

The Future of Edge Computing

November 14, 2018

The Future of Telecommunication, EtherCAT Technology Group, PROFIBUS & Profinet, Industrial Internet Consortium, OPC Foundation, Bosch, Siemens, B&R Industrial Automation, Intel, HUAWEI, SAP, and others.

The Market Value of IIoT Will Grow to 21 Billion USD by 2023. At the forum the first adopters present their newest achievements and discuss future standards, solutions, and trials. Leading experts, innovators, first movers, and early winners will be present.

The forum takes place on the 13th of November 2018 in Berlin. As part of Future of Error Computing, FOKUS is organizing the Edge Computing Forum that will take place on the 15th and 16th of November and learn more about the latest development in networking technology.
